

WAVE TALK

Lightweight Communication System

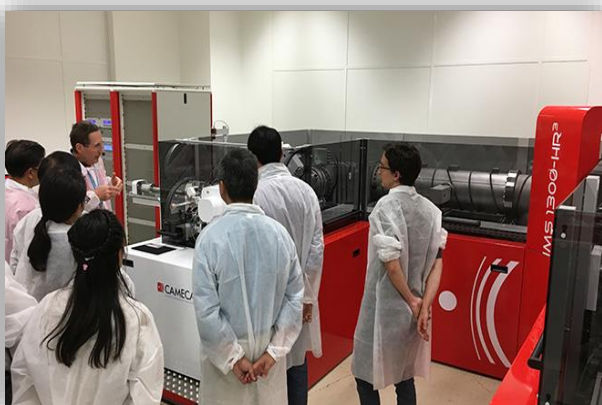

Wave TALK, okayo's latest lightweight communication system, is featured long battery life (over 30 hours) with tiny lithium battery and suitable for all kinds of gathering occasions, no matter small or large groups. Digital technology leads to quality and noise-free sound which optimizes hearing experience. A variety of compatible chargers and accessories are available for onsite arrangement.

TK-501T

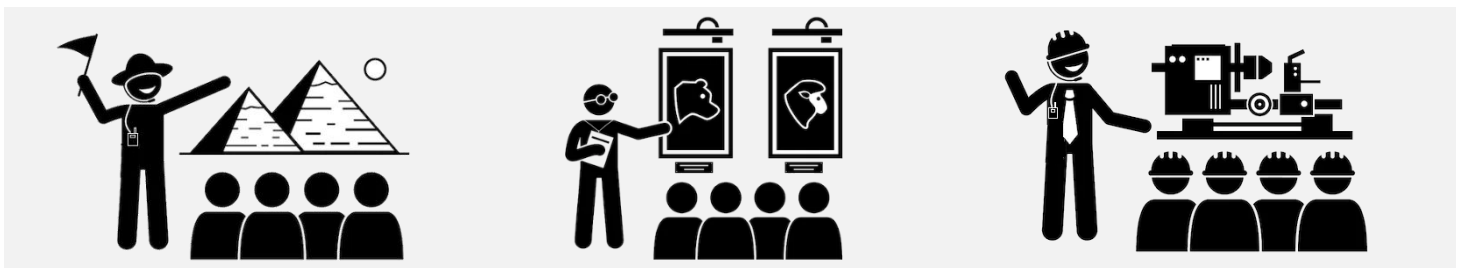

TK-501R

Features

- ✓ Compact size and lightweight design with only 55g
- ✓ ~100 meter operating range maximizes use cases
- ✓ Over 30-hour battery life in just 3~4 hour charging time
- ✓ Quick to find a clear channel and remotely change receivers' channel
- ✓ One button to shut all receivers off to accelerate group closure
- ✓ Dual charging ways available, USB-C or compatible charger
- ✓ Optional handheld mic TK-501H enhances group interaction

TK-501H

Specifications

Carrier frequency range	823 ~ 832 & 863 ~ 865 MHz
Channels	42
Transmitting power	< 10 mW
Frequency response	100 ~ 10,000 Hz
Operating time	(RX) 30+ hours, typical (TX) 18+ hours, typical
Charging time	2 ~ 4 hours
Connections	3.5 mm mic input ; USB-C charging port
Power	1,300 mA Lithium battery
Operating temperature	0 ~ 60°C
Dimensions (WxHxD)	43 x 81x 15 mm (without belt clip & antenna)
Weight	55 g (battery incl)
